SHREWSBURY BOROUGH SCHOOL LIBRARY
SUGGESTED SUMMER READING

“By working together we can stimulate a love of reading among our young people that will last them all their lives: we can also create new attitudes that will enable good children’s books and good young minds to flourish.”

Library of Congress

Cheryl A. Quinn
Library Media Specialist

Becoming a nation of readers is a primary focus in our educational philosophy. Each child’s life is greatly enriched by the reading of fine literature from a wide variety of sources. Please encourage your child to read in addition to his/her required reading during the summer months.

The recommended list includes a wide variety of options. Parents are encouraged to supervise the selection of books. Students should feel comfortable to try something new, or challenging, and enjoyable. A copy of this reading list is on our school website.
