In the picturesque Israeli Negev desert lays the Bedouin village of El-Sayed. It has the largest percentage of deaf people in the world. Still, no hearing aids can be seen because in El-Sayed deafness is not a handicap. Through the generations a unique sign language has evolved making it the most popular language in this rare society that accepts deafness as natural as life itself. The village's tranquility is interrupted by Salim's decision to change his deaf son's fate and make him a hearing person using the Cochlear Implant Operation.
