

## Let's Not Be a PLASTIC Planet!

---

**In America the average person uses 175 POUNDS of plastic per year! YIKES!!**

Plastic bags from groceries, pharmacies, takeout food businesses and various stores show up in rivers, parks and streets of almost every city or town on our planet.

Our hometown of Shrewsbury is no exception! At our annual town clean up, volunteers pick up used bags, bottles and countless pieces of discarded packaging every year.

**WE CAN IMPROVE THE SITUATION!!**

Join us on **Wednesday, October 25, at 6:30 PM** to learn what is happening and to develop a plan that will work for us!

Meet us in the school gym! This is for adults and children. There will be a short **MOVIE** with popcorn, facts and fun.

**\*\*\*\*\*All are welcome to attend and participate. \*\*\*\*\***
