June 17, 2020

Dear Parents and Families,

As the 2019-2020 school year comes to a close, I want to update you on summer work for students entering grades 5-9 in September 2020. Traditionally there is a summer reading assignment by Red Bank Regional High School for incoming freshmen and summer reading and math assignments for middle school students continuing at SBS. However, this year has been anything but traditional.

This summer we will not be assigning mandatory summer reading or math assignments for students entering grades 5-8 in September. There will also be no summer reading assignment for students entering RBR as freshmen in the fall. We understand everyone continues to face uncertainties and we feel that we are able to provide some relief to our students and families by removing these mandatory assignments for this summer.

To keep students learning over the summer, we encourage students to visit [IXL's Summer Spotlight Learning Plans](#) to review and reinforce concepts learned this school year, as well as prepare for material in the upcoming school year.

We have also linked activities and resources by grade band that you can weave into your summer days to support critical thinking skills by strengthening their real-world experiences with you to draw upon.

[Summer Activities: Middle School](#)

Please know that administration and teachers are working together to ensure that all of our students will be supported socially, emotionally, and academically in the 2020-2021 school year.

I hope that this summer brings health, happiness, fun, and relaxation to all of our students and families in the Shrewsbury community.

Sincerely,

Jessica Wakula
