Dear SBS Parents and Guardians,

June 14, 2024

I hope this Email finds you setting your sights on our near Summer Break with family plans and schedules in place. I would like to take this time to tell you about Shrewsbury Borough School's Mathematics and Summer Reading Work.

While all students in grades 5 through 8 are required to complete mandatory summer reading and math assignments, our K through 4 teachers have put together suggested work for students entering kindergarten through grade 4. One doesn't need to look further than the decades-long research on the [Summer Slide](#) in Mathematics and Reading to see the importance of keeping up with math and reading skills during the long Summer Break.

SBS values the commitments that families make to ensure our students maintain the academic successes made over the 2023-2024 school year. Please see the curated [Summer 2024 Reading Incentives Outside of SBS.pdf](#) which provides a list of community opportunities for students to earn reading rewards. Below you will find the lists of K-4 suggested summer work and 5-8 mandatory summer work. Additionally, [iReady](#) and [IXL](#) are available for students to access throughout the summer.
